03 — Design Principles

I. Scholarship before spectacle

Typography and legibility first. Decoration earns its place only if it communicates.

II. Warmth, not coldness

Parchment over white. Spectral over sans. The school is a library, not a dashboard.

III. Level signals are always explicit

Verd / Gold / Garnet — consistent on every surface. Never swap.

IV. Charitable to the student

Progress is never hidden. Locks are explained. Feedback is always kind.

04 — LEVEL SYSTEM

Level I · Beginner

First Light

Where reason begins. Define the terms, reason in valid arguments, spot common fallacies.
